MISSION

We will educate the people about the power of their food and how it is medicine. The education part of the initiative is imperative to ensure the long-term success of healing the nation. The power will be gained through being able to provide employment and food for their community. The freedom they gain will be from the mentality of feeling trapped on government funding.

VISION

Green Feather Foundation Inc is a not for profit corporation created to do one thing, end third world conditions in Indigenous communities using the fresh model; food, renewable energy, entrepreneurship, shelter, and H2O. Green Feather Foundation Inc will create, monitor, and sustain a chemical-free and gmo-free foods grown in Indigenous communities; and create, monitor, and sustain a flax to linen industry in the Saskatchewan Flax Belt.

THE ICON

The "eagle feather" speaks to the whole intent of the organization. It is a high honour to receive an eagle feather, and usually marks a milestone. The milestone in this case is eliminating third world conditions in Indigenous communities. The feather is a substitute for the leaf that is usually associated with the Green Movement, but the feather for Indigenous people represents a symbol of truth, power and freedom.

FREEDOM BOUND

7 DAY CAMP

Reconciliation of the past together
through our Grandmothers with a Duty to
Consult the Community

We invite Treaty and non-Treaty Homeless to attend our Healing
Camp to introduce a Pilot Project on how to heal addictions
through food, love and knowledge.

We invite grandmothers, professionals, and two-spirits to come
together for a one week camp to understand addictions in a
different light vs mainstream ways.
